

LATIN METALS

PARTNER-FUNDED DISCOVERY IN SOUTH AMERICA

A diversified exploration portfolio advanced through partnerships and partner-funded capital

PROSPECT GENERATOR MODEL

Advancing high-quality mineral projects through partnerships that fund exploration while preserving shareholder upside.

DIVERSIFIED PORTFOLIO

A portfolio of exploration projects across Peru and Argentina provides multiple opportunities for discovery across key commodities.

JURISDICTIONAL FOCUS

Large land positions in proven mineral belts position the Company for discovery-driven growth in two of South America's most prospective jurisdictions.

PARTNER-DRIVEN MOMENTUM

Over \$80 million in partner-funded exploration will advance the portfolio while significantly reducing shareholder dilution.

*Multiple shots on goal.
Partner-funded execution.*

2026 CATALYSTS

DRILLING

Cerro Bayo, Argentina

Daura Gold | Gold-Silver | Q1 Drilling

Zaha, Argentina

Moxico Resources | Copper- Gold | H1 2026 Drilling

POTENTIAL PARTNERS

Lacsha, Peru

Partnering process underway for drill-ready copper targets

Organullo, Argentina

Permitted for new gold-focused partnership

EXPLORATION & ACQUISITIONS

Ventana, Argentina – Regional geochemical program to advance sediment-hosted copper targets

New Acquisitions – Ongoing project generation in Peru and Argentina

LATIN EXPLORE

DRILL-FOCUSED COPPER-GOLD EXPLORATION

A focused exploration company created to advance copper-gold projects through drilling.

FOCUSED DRILL STRATEGY

A streamlined portfolio allows capital and technical effort to be directed toward high-priority drill targets.

100% OWNED PROJECTS

Full ownership of Para and Auquis preserves full exposure to any drill discovery.

PARA FLAGSHIP

Para is drill-ready, with priority targets defined by extensive historical and surface work.

GROWTH FOCUSED

Acquire drill-ready copper-gold projects with meaningful technical de-risking and clear upside through near-term drilling.

2026 CATALYSTS

PARA DRILLING

Initial drilling is planned at the Para copper-gold project in 2026, targeting a Tier 1 Copper Porphyry discovery.

AUQUIS EXPLORATION

Advance surface exploration programs to define and prioritize drill targets within identified porphyry and skarn systems.

ADVANCE PROJECT ACQUISITION

Targeting 1-3 advanced copper-gold project acquisitions in 2026 with defined targets and near-term drill potential.

Latin Explore is a spin-out, with a Q1 2026 TSXV listing, providing investors direct exposure to drill execution.
